

# LINEALED

BY  
CARLOTTA DE BEVILACQUA

CARLOTTA DE BEVILACQUA

Architect, designer and above all humanist, Carlotta de Bevilacqua has been a force in contemporary lighting since the 1980's. A pioneer in LED research and implementation, she created the concept "The Human Light" in which lighting encourages not only the well-being of those who live, work and interact with it, but also the planet.

As interested in science of light as the sensory experience, de Bevilacqua seeks to create synergy between products and users through accessible, experimental design. A life-force at Artemide for nearly 4 decades, in addition to her own studio she oversees Danese Milano creating minimal, yet elegant, products which further complement the built environment.

In addition to widespread recognition for her work, in 2011, she received a Red Dot Design Award for the Algoritmo and Copernico.

## MINIMALISM

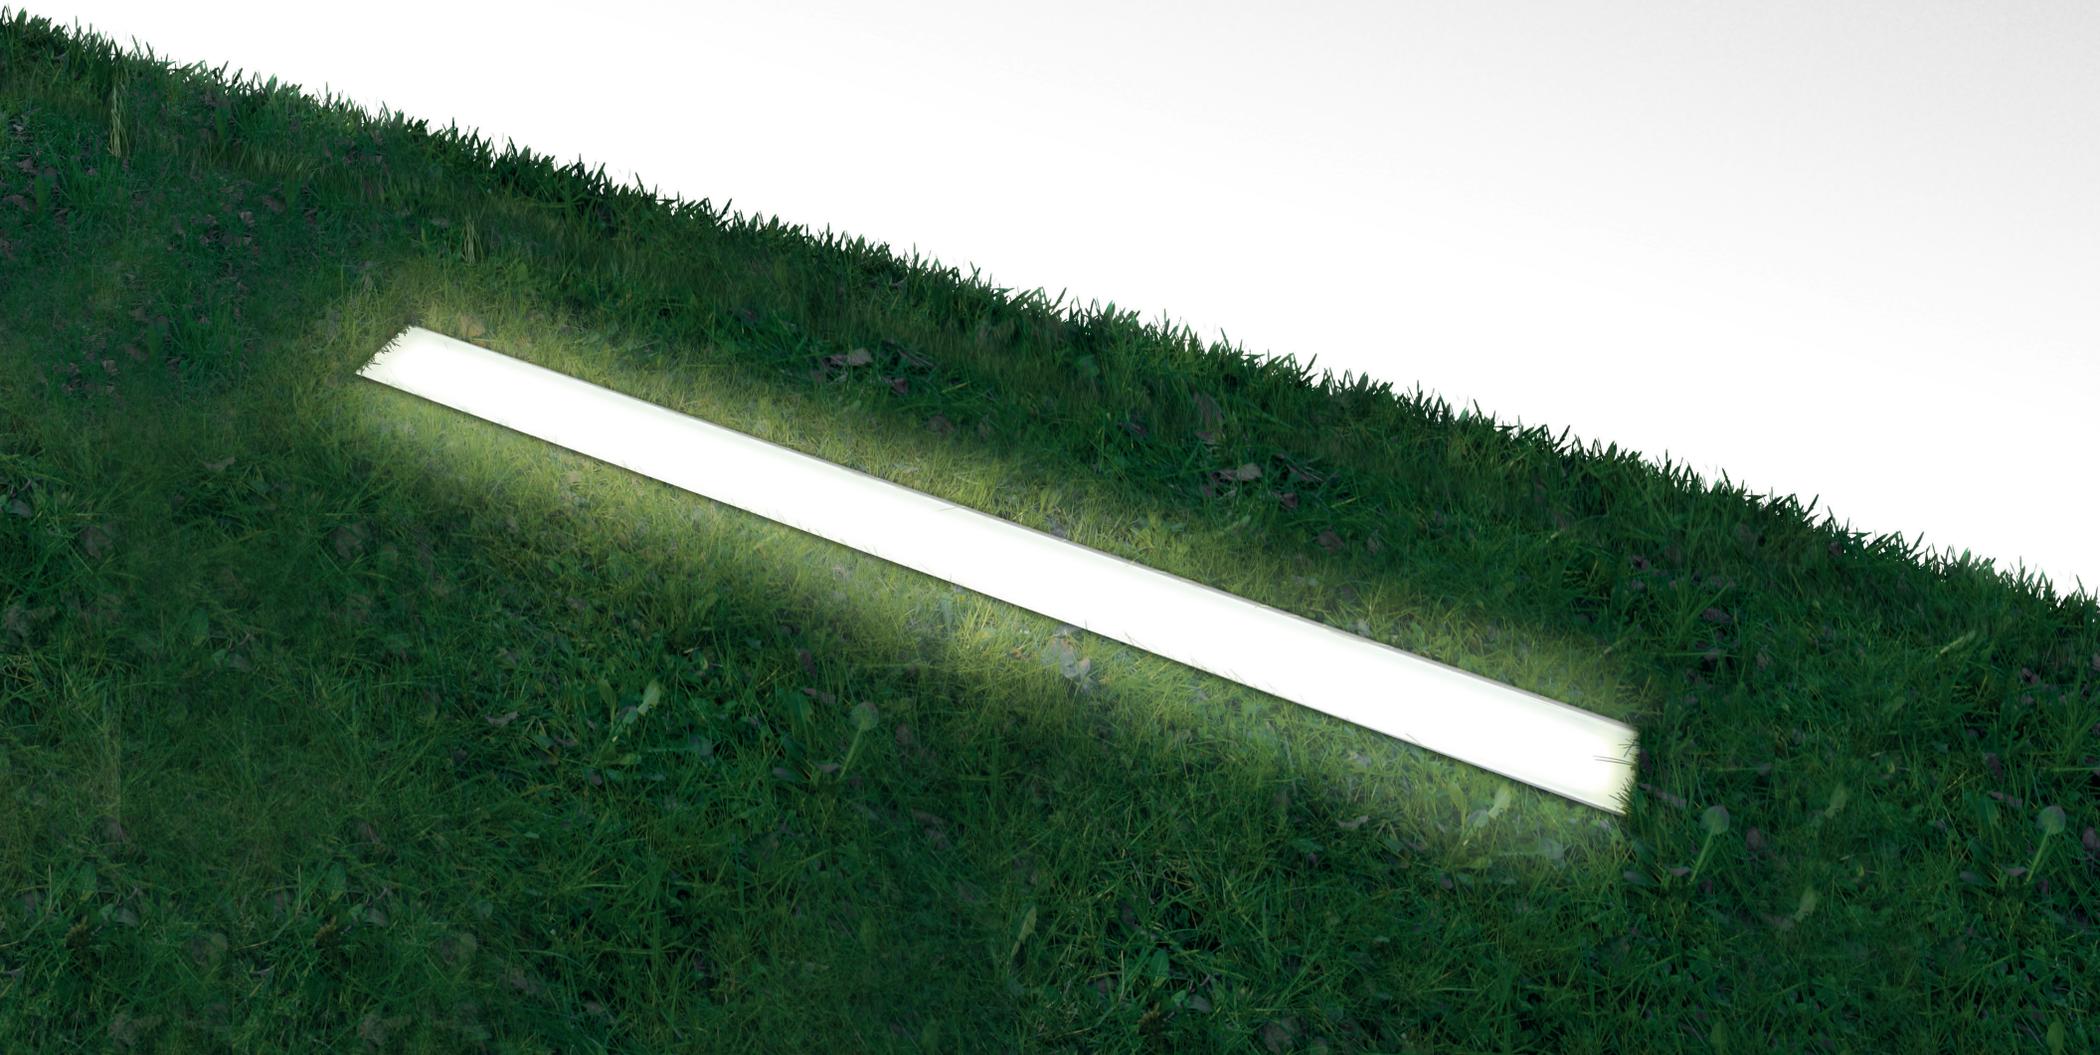

---

Defined by its broad functionality, LineaLed's minimal light strip design produces maximum light quality. When used in linear sequences, LineaLed creates a strong sense of light guidance along paths or walls.

## FUNCTIONALITY

LineaLed is a drive-over luminaire with indirect light emission from high-performance LEDs. The fixture's extruded aluminum body with injection-molded polycarbonate end caps and opal non-slippery tempered glass.

## TECHNOLOGY

---

LineaLed features indirect emission from high-performance LEDs. While enhancing exteriors with its functional essence, the fixture's LED technology ensures environmental friendly lighting and durability.

# LINEALED DRIVE-OVER floor

## LINEALED DRIVE-OVER 24 floor

**EMISSION**  
indirect

**LIGHT SOURCE**  
LED  
5W 3000K >80 CRI

**DIMMING FEATURE**  
standard non dimmable

### DIMENSIONS
