LINEAFLAT & LINEACURVE

BY
NA DESIGN
Lineaflat features a smooth surface, while Lineacurve has a softly shaped outward curve. The fixtures’ sleek, contemporary design add elegant lines to any application, residential or commercial.
The Linea family is available in both flat and curved models, in 4 different lengths. The fixture can be applied to the wall or ceiling, either vertically or horizontally. Available in white or anthracite grey.
Lineaflat and Lineacurve are dimmable, use a high performance LED and are suitable for ADA applications. The fixture is designed to cover a standard junction box and provides direct, indirect or direct/indirect lighting.
