Carlotta de Bevilacqua

CARLOTTA DE BEVILACQUA

As interested in science of light as the sensory experience, de Bevilacqua seeks to create synergy between products and users through accessible, experimental design. A life-force at Artemide for nearly 4 decades, in addition to her own studio she oversees Danese Milano creating minimal, yet elegant, products which further complement the built environment.

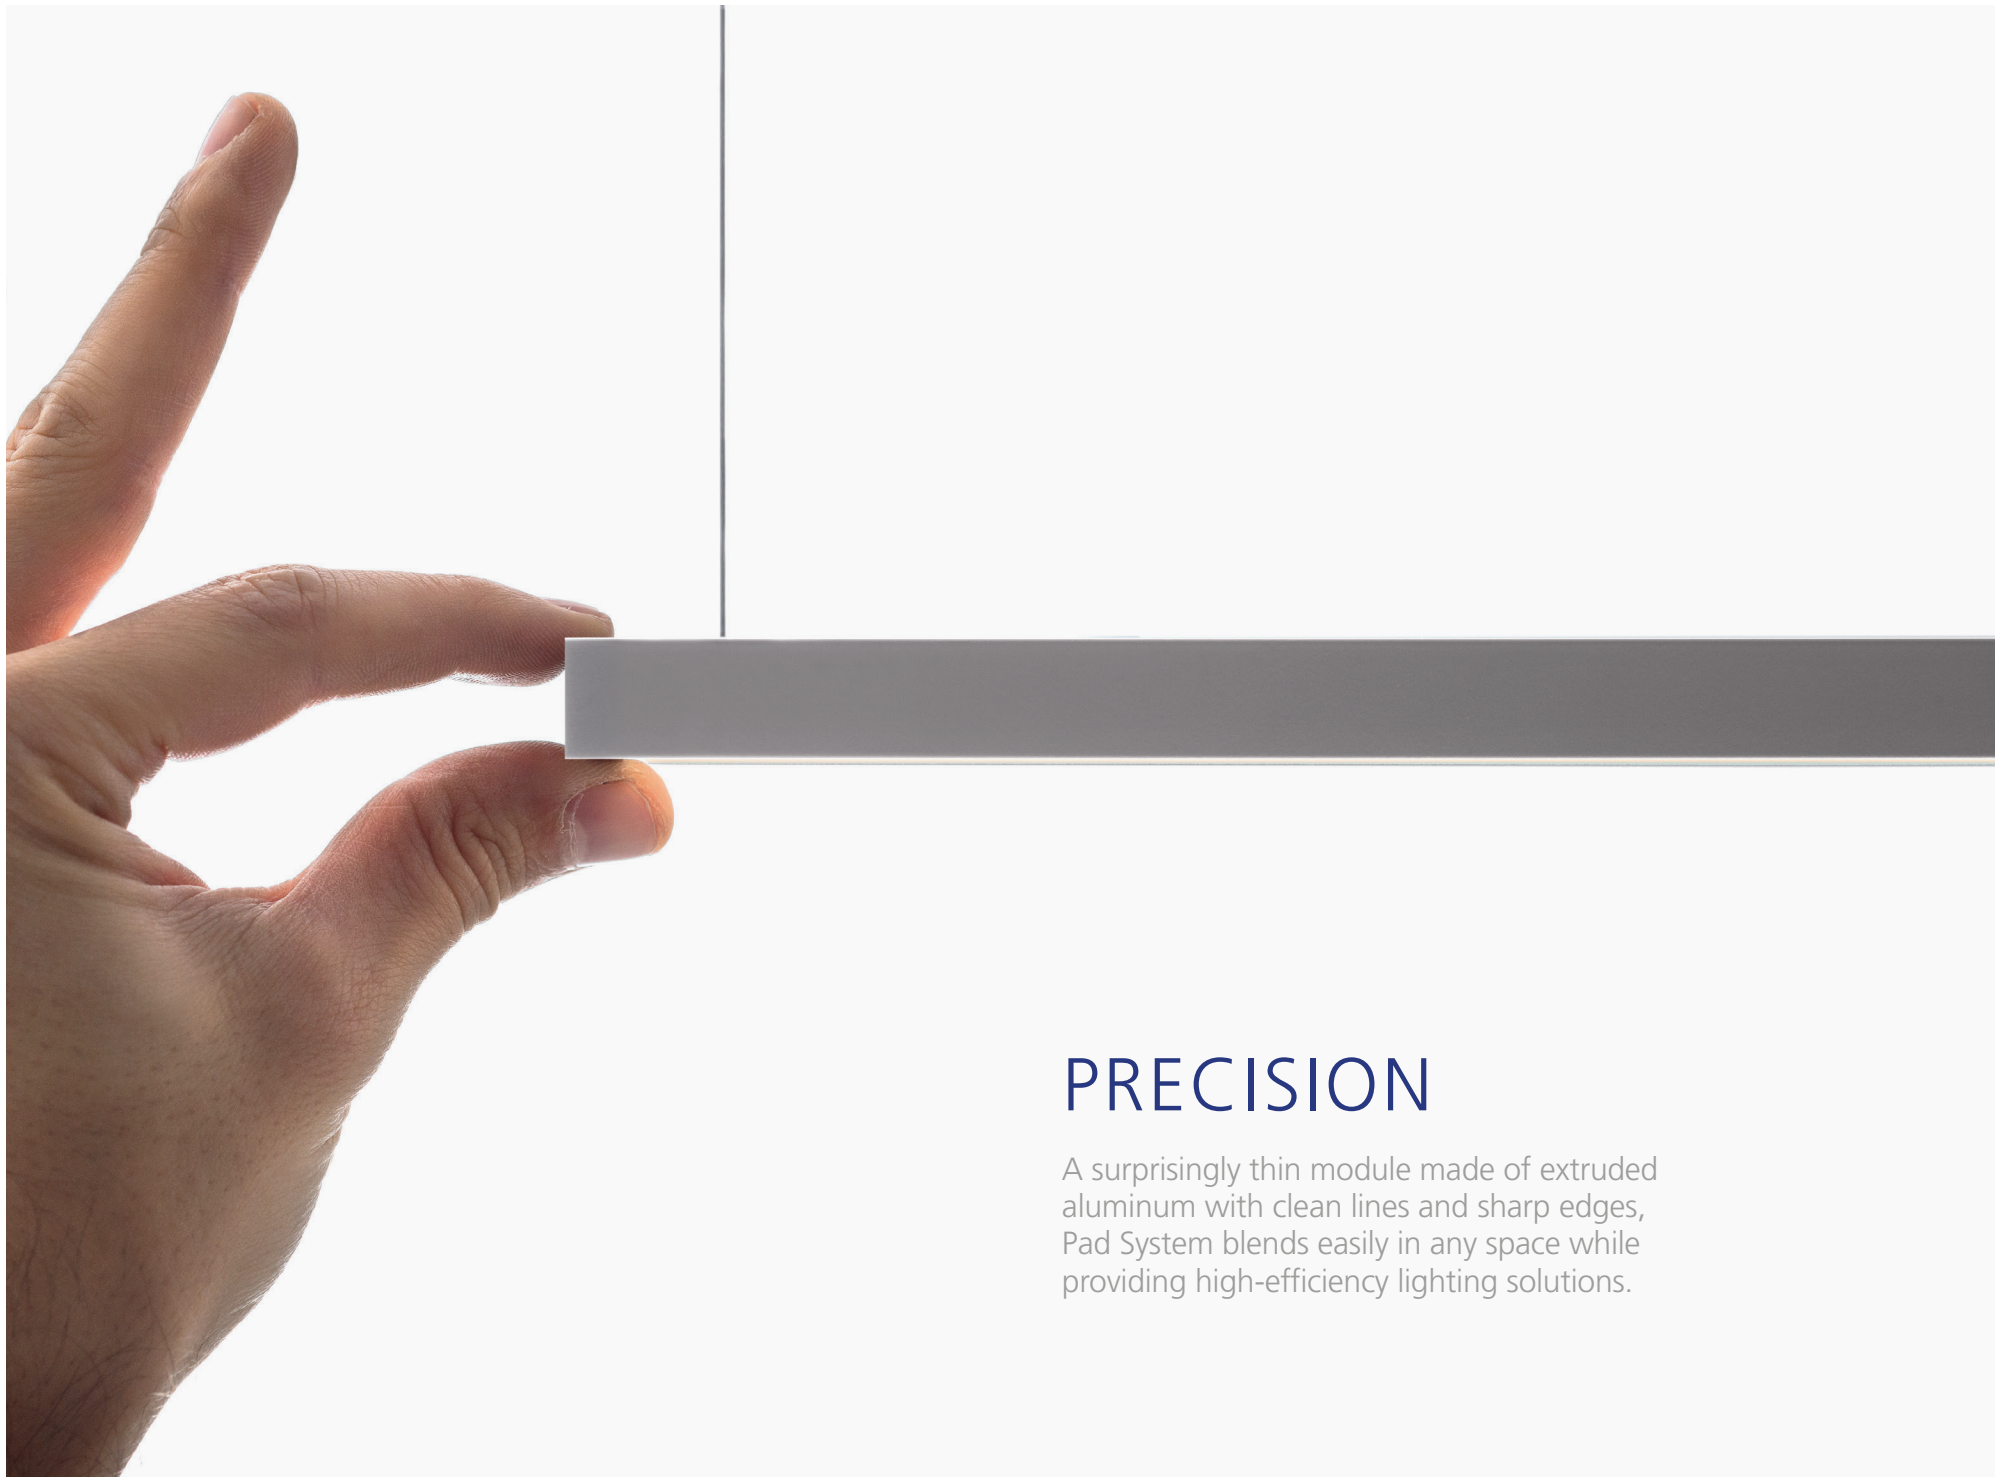

COMFORT

Pad System was developed following a study on the theme of office lighting. This modular system is focused on functional quality and comfort, using a combination of direct and indirect light.

TECHNOLOGY

Pad System features the innovative Advanced Lighting Emitting Film (ALEF) from LG, derived from TV-screen backlighting systems. It allows for the light to be evenly diffused on the surface of the diffuser, providing a high-quality lighting solution without any black spot.

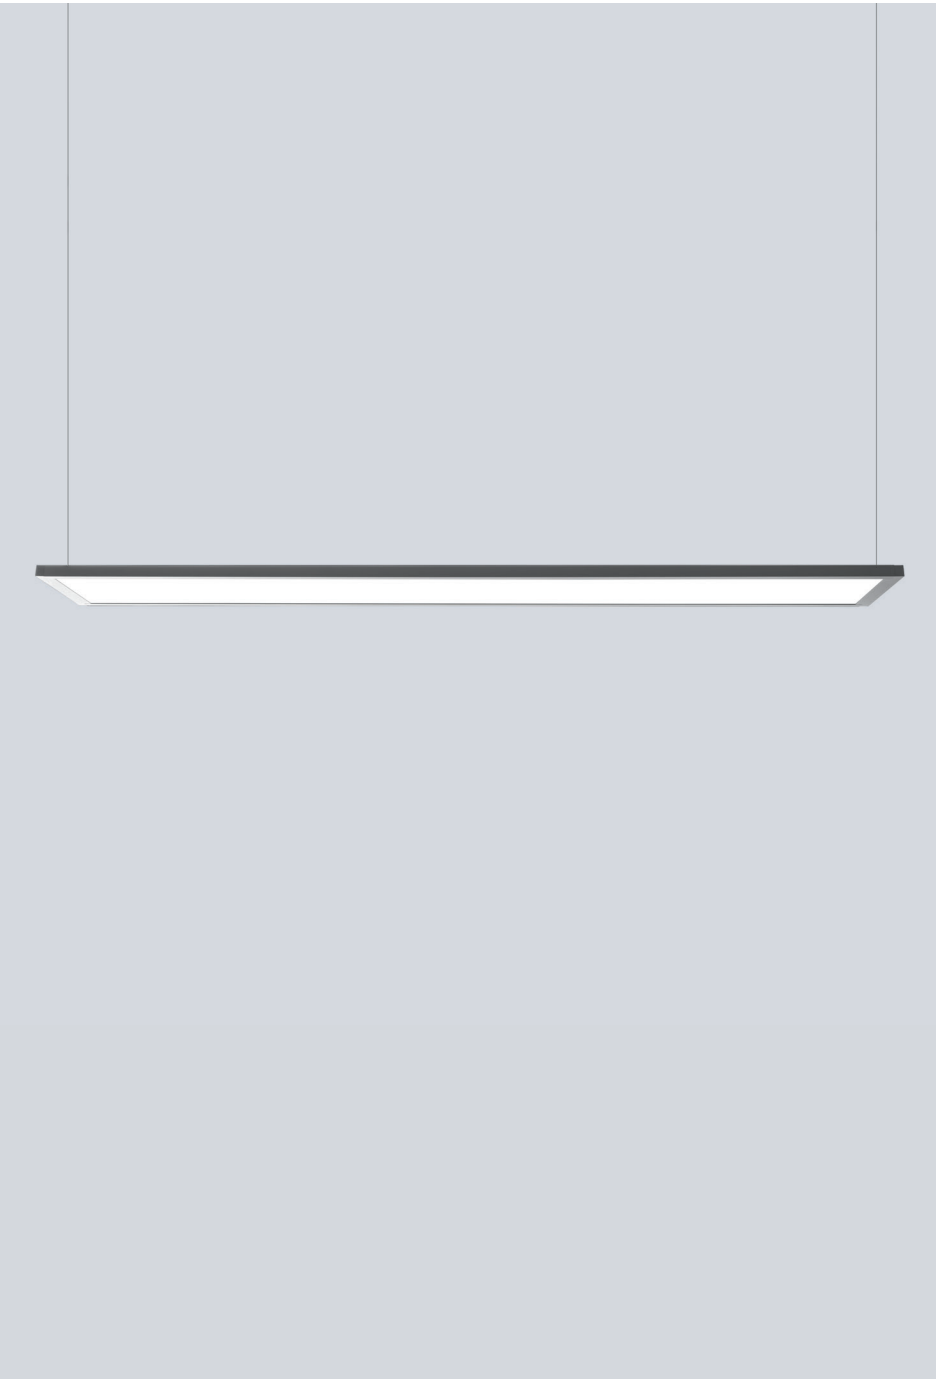

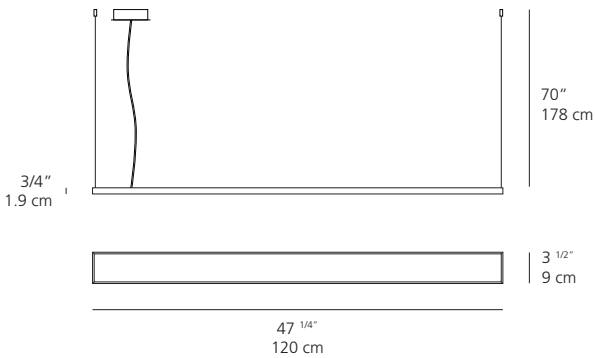

PRECISION

A surprisingly thin module made of extruded aluminum with clean lines and sharp edges, Pad System blends easily in any space while providing high-efficiency lighting solutions.

Pad Standalone

Technical data

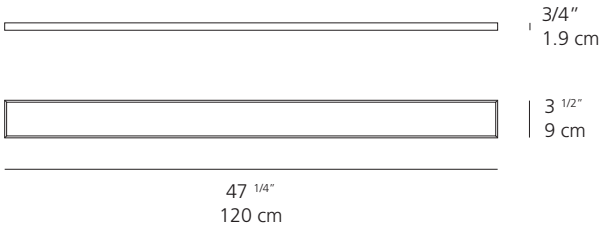

MATERIALS	Structure in extruded aluminum. Suspension cables in steel with quick adjustment.
EMISSION	Direct & Indirect
LIGHT SOURCE	LED 48W 3500K >85CRI
VOLTAGE	120-277V
LUMENS DELIVERED	3600lm
DIMMING FEATURE	Dimmable 0-10V
FINISH	<input type="radio"/> White <input checked="" type="radio"/> Clear anodized
CERTIFICATIONS	c.UL.us listed
