# Tolomeo Micro Bicolor

Michele de Lucchi & Giancarlo Fassina

↪ 2019

“I designed the Tolomeo in 1986. Perhaps I ought to say that I invented it, as in point of fact the idea for a new mechanism came before the lamp was created.”

**Michele De Lucchi**

The iconic Tolomeo lamp is now available in vibrant pops of color. Shades of blue, yellow, coral and white add a bright accent to the black base. The lamp features the same flexible arm and diffuser as the iconic original, working perfectly as both a functional task lamp and design object.

Brought out in 1987 and designed for Artemide by Michele De Lucchi

with Giancarlo Fassina, the Tolomeo was an immediate best-seller, consolidating a working relationship that continues to this day. Inspired by traditional balanced arm lamps like the famous Naska Loris, his challenge was to combine an iconic and “domestic” form with innovative technologies and materials, adapting it to a wide variety of uses and settings.

Today it is a well-known symbol of the modern object, commonly seen in houses, offices and hotels, on the desks of architects and on photographic and even film sets.

Compasso d'Oro, 1989

## ➤ Icon

The main mission for a designer is to create a system of light that finds a shape. Designed by Michele de Lucchi and Giancarlo Fassina, Tolomeo's timeless features have earned resounding fame that have turned the luminaire into a indisputable icon in modern lighting.

«Light is the most intangible material there is. It's the element that best represents the sense of infinity, the sense of an endless future.» **Michele de Lucchi.**

Everything about Tolomeo's composure identifies strongly with Artemide's Human Light philosophy that places men and the pursuit of their well being at the core of research and development. Tolomeo is the perfect marriage between design and engineering.

## ↗ Versatility

Designed with the utmost simplicity, Tolomeo is inspired by the mechanism of industrial fishing nets, its diffuser being supported fully by a hidden tension chord. The lamp is very flexible, a crucial feature for targeted lighting. Tolomeo's familiar, supple shade, hides all internal structures and is meant to be manoeuvred with one hand, in any position, guaranteeing perfect stillness. Tolomeo is a mixture of technology and domesticity, casting quality light that relaxes the eye.
